

# Love Has a Name

Written by Evan Wickham Copyright © 2009 Evan Wickham BMI

## Verse 1:

What have we done? We've stopped before the race was run  
I know I'm not the only one wondering  
When did we become the very thing we're running from  
Consume it all and leave a crumb for offering

## Pre-Chorus 1:

All our righteous deeds  
They don't mean a single thing

## Chorus:

Without love all of our praises  
Are only empty phrases  
So we seek the face of Jesus  
Let the Savior free us with His love

## Verse 2:

Fire burning bright, I need it in my soul tonight  
Give me courage give me sight for Your heart  
Only You know, Oh, only You know the wickedness in me  
So change me, Lord, I want to be like You are

## Pre-Chorus 2:

Is there anyone  
Who can live like the Son

## (Chorus)

## Bridge:

For the girl dressed in white, for the man who's lost his sight  
When life's the question, love's the answer  
For the poor nameless child, for lovers unreconciled  
When life's the question, love's the answer  
For a world lost in pain, know that love has a name  
When life's the question, Jesus answers with His love  
Always waits, never lies, no disguise  
The love of Jesus
